

EFS Facilities Services celebrates landmark achievement

EFS Facilities Services, a regional leader in delivering integrated facilities management services across the Middle East, Africa, South Asia, recently announced the landmark achievement of securing more

than US \$1 Billion (Dhs3.67 Billion) worth of ongoing contracts globally, for the first time in its history.

The significant milestone was accomplished on the back of the USD 200 million worth of project wins

secured in 2017 from various key markets, including UAE, KSA, Qatar, and India. EFS also strengthened its revenue stream amidst an overarching economic slowdown in the region, achieving steady and robust revenue growth, representing a commendable

21% CAGR growth in revenue in the last 5 years.

Tariq Chauhan, Group CEO, commented on the achievement by stating: “We are extremely delighted to have crossed the psychological (and financially significant) barrier

of US \$1 Billion in ongoing contracts backlog. This was a major milestone that we’d set for ourselves and we are proud of the sincere efforts, motivation, and innovation that EFS personnel have demonstrated to our clients across the region. The

satisfaction and trust that we’ve earned from our clients is one of the significant influencers that have helped us expand our global operational footprint to cover more than 20 key markets across MEASA (Middle East, Africa & South Asia).”
